Date: 27th August 2014

**Points Discussed in Industrial Advisory Board (IAB) Meeting held on 27th August 2014, in
Mechanical Engineering Department:**

Head of the Mechanical department has discussed the new structure for the B-Tech students.

Following are the point discussed after HOD's presentation;

- 1) Role of mini projects and major projects in learning can be improved.
- 2) A few initial level real life problems / assignments from Industry can be considered for Mini projects.
- 3) Major Projects have good amount of time. Major projects can be the real life projects from Industries. It will help students to get fare idea of applications.
- 4) Industry sponsored major projects can additionally give idea to students about ways of working of a live industry.
- 5) Contents from the curriculum which increase employability of students can be improved. Value added courses can be reviewed and added.
