**Mechanical Engineering Department**

Ref: VI/BOS-10/Mech./2016/

Date: 22<sup>nd</sup> March 2016

**Points Discussed in Industrial Advisory Board (IAB) Meeting held on 22<sup>nd</sup> March 2016, in  
Mechanical Engineering Department:**

Head of the Mechanical department has discussed the structure for the B-Tech students.

Following are the point discussed after HOD's presentation:

- 1) Efforts need to be taken to improve the Quantitative aptitude of students.
- 2) This will play major role in recruitment procedures and in competitive exams. Thus it is important for the future of students no matter what direction they chose after UG.
- 3) This can be improve by additional courses. Also special guidance sessions for specific competitive exams can be arranged by experts to get required guidance.
- 4) Communication skills also play deciding role for all engineers.
- 5) Not only for job selection procedures or higher education interviews, but also for regular functioning of the engineer.
- 6) Peripheral aspects in addition to the technical knowledge will exactly give the student a standing in the competitive scenario today.
